1988
Index to Volume 50

This index includes everything published in *The American Biology Teacher* during 1988 (Volume 50) except filler material. Book reviews in the Title Index are listed with the names of the authors of the books in parentheses, not of the reviewers, who instead are listed in the Author Index. Initial articles (a, an, the) are not considered in alphabetization in the index. The index is alphabetical word-by-word. For example: "educational" would follow education theory." Page numbers indicate the first page of the article or department in which the entries appear.

Entries are in three categories: Subject, Title and Author. All entries include one of the following key codes:

A = Article AV = AV Review R = Book Review
F = Feature E = Editorial L = Letter
RR = Research Review

A typical entry might be: *Zoos*.....*5:555A*
This would mean there is information on *Zoos* in issue *5* (May), on page *555*, in an *A*rticle.

TITLES

AV Reviews

The acorn woodpecker. (Univ. of CA Exten. Cntr.) 2:119AV
Amazing animals A-Z: (1) familiar animals (2) animals strange and new. (National Geographic Society) 2:120AV
Bats. (Bullfrog Films) 5:307AV
The biochemical basis of biology: cell structure and energy production (The Biochemical Society) 8:515AV
The cell biology videodisc. (Videodiscovery) 7:462AV
Dinosaurs: giant reptiles. (National Geographic Society) 8:515AV
Evolution and human equality. (Insight Video) 5:307AV
Fate or fiction: biological theories of human behavior. (The Sociobiology Study Group of Science for the People) 4:245AV
The frog inside out. (Instructivision) 8:515AV
Get ready, get set, grow! (Bullfrog Films) 7:462AV
Hibernating ground squirrels. (Bullfrog Films) 4:245AV
The human body series. (National Geographic Society) 6:384AV
The living ocean. (National Geographic Society) 6:384AV
Logic. (Education Dimensions Group) 3:173AV
Modern biology series: Mollusks: the mussel respiration and digestion. (Benchmark Films) 2:119AV
Modern biology series: The paramecium. (Benchmark Films) 2:119AV
Modern biology series: Simple multi-cellular animals: sponges, coelenterates, and flatworms. (Benchmark Films) 2:119AV
Ocean symphony: the ultimate under-water adventure. (MCA Home Video, Coronet/MTI Film & Video) 6:384AV
People in science today: A zoologist. (Hawkhill Assoc.) 1:65AV
Polar bears. (Bullfrog Films) 3:174AV
Reptiles and how they grow. (National Geo. Society) 8:515AV
Science laboratory techniques. (Media Design Assoc.) 1:65AV
Scientific Graphs: How to make them - and make sense of them. (Science and Mankind) 3:173AV
Search for survival. (Coronet Feature Video) 7:463AV
Sleeping bears. (Bullfrog Films) 3:173AV
The structure and physiology of the avian egg. (Univ. of CA Extension Media Center) 2:120AV
The surgeon general's report on AIDS. (Educational Dimensions Group) 1:65AV
Thinking things through: solving problems/making decisions (Educational Audio Visual) 3:174AV
Toxic chemicals: information is the best defense. (Bullfrog Films) 4:246AV
